Everyone has a responsibility for the security of personal data and this is something we as a school take seriously.

Personal data processed by the School: The School collects personal information about pupils and parents when initially joining the School as well as at different times during the year where it is deemed necessary for administration of the school. The School will not ask for information that is not relevant and all data that is collected will be used for legitimate purposes as deemed by the School.

Personal data processed by the School includes contact details, test and other assessment results, attendance information, dietary requirements, SEND information, images, audio and video of pupils engaging in School activities (and in relation to parents and/or guardians, may include financial information).

We process data in line with applicable law with respect to safeguarding by asking for explicit consent where this is deemed necessary.

Collecting, handling and sharing personal data: The School collects most of the personal data we process directly from the individual concerned (or in the case of pupils, from their parents or guardians). In some cases, we collect data from third parties (for example, referees, previous schools, the Disclosure and Barring Service, or professionals or authorities working with the individual) or from publicly available resources.

Personal data held by us is processed by appropriate members of staff for the purposes for which the data was provided and in allowing them to perform their duties and responsibilities. As a result, different members of staff will have access to different categories of personal data depending upon their role. The School takes appropriate technical and organisational steps to ensure the security of personal data about individuals, including policies around use of technology and devices, and access to school systems.

The School avoids transferring personal data outside of the European Economic Area unless we are satisfied that the personal data will be afforded an equivalent level of protection (e.g. Privacy Shield in the US).

Some of the School's systems are provided by third parties, e.g. school website, Parent Evening System, Google Drive, Microsoft Office 365 or other cloud storage providers.
